key make-up/hair

## PROFILE

I have consistently worked in TV/Film/Fashion for over 10 years and know what it means to lead make-up/hair teams to support high quality productions. I enjoy matching skills to ever-changing camera technology and producing special f/x treatments on a fast-paced film set. The creativity of the entertainment industry has been a perfect fit with my artistic drive and my capacity to transfer techniques to others. As a complement, the efficiency of the entertainment industry fits my attention to detail and my enjoyment of intense workload.
